keyword in meta description, keyword in image alt, keyword in URL slug, robots.txt, sitemap, page in sitemap, image sitemap, llms.txt

1 warning

Keyword Placement

Checks whether your target keyword appears in the most important on-page locations.

PASS	Title tag
PASS	H1 heading
FAIL	Meta description
PASS	First 100 words of body
FAIL	Image alt text
FAIL	URL slug
Consider including your keyword in the page URL path.	

Keyword Density

How often words and phrases appear in your content. Above 3% can look like keyword stuffing to search engines.

"Professional Headshots Detroit" appears 1 times (0.1% of all words).

Low — consider adding your keyword more naturally.

Top 2-word phrases:

Content

Basic content quality signals including word count, readability, and content rendering consistency.

Word count: 1490

Content-to-HTML ratio: 0.16

Readability: 72.2 (Easy)

PASS Content length is adequate

WARN Content trifecta issue: Keyword in H1 but missing from image alt text

PASS Content renders consistently with and without JavaScript

Headings

Your page's heading structure. Search engines use headings to understand content hierarchy.

H1: PROFESSIONAL HEADSHOTS DETROIT

H2: My job is to create the image that shows people how you make them feel, not just how you look.

H2: You don't need to know how to pose. That's my job.

H2: It's more relaxed than you think.

H2: Hi, I'm Judy.

H2: Real experiences from real people

H2: Ready for a headshot that actually feels like you?

H2: The Process

H2: The FAQs

H2: Business Headshots

H2: Professional Headshots

H2: Actor & Model Headshots

H2: Team Headshots

H3: BOOK IT

H3: SHOOT IT

H3: LOVE IT

H3: What To Wear For Your Headshot Session

H3: Hair & Makeup Tips For Your Headshot Session

PASS Heading hierarchy is intact
